**CENTRAL MOLONEY, INC. ANNOUNCEMENT
TRANSFORMER PRICING AND EXTENDED LEAD TIMES**

Central Moloney, Inc. has seen a sudden, significant increase in our backlog of orders for single phase and three phase transformers. Due to these increased orders, coupled with the Hurricane Matthew storm restoration efforts, we have found it necessary to extend our lead times to non-contract customers. In addition, on new quote requests we are raising prices on all product lines effective immediately.

We ask for your understanding and sensitivity in regards to this decision.

Patrick Colclasure
Vice President of Sales and Engineering
